AMENDMENT

Sir:

In response to the Office Action of March 7, 2002, Applicants hereby respond as follows:

IN THE CLAIMS

Please amend claims 7 and 9 to appear as set forth below. A separate markup sheet accompanies this amendment. For clarity purposes, all claims are shown below.

1. (Pending) A semiconductor device having a semiconductor body which on a surface comprises an integrated circuit containing protection means for protection against electrostatic discharge (ESD), the means being a compound element of an SCR and at least two gated diodes, the protection means being provided in a surface area of a first conductivity type having a single well of a second, opposite, conductivity type,
